## Home-School-Child-Agreement

A statutory contract between home and school

This agreement forms the basis of the relationship between the home and the school. It is seen as supplementary to the prospectus and should be seen as an agreement between ourselves as to how we intend to conduct our relationship.

If all parties live up to the promise of the agreement your child should be receiving the benefits of a highly productive environment.

This document is signed on behalf of the school by me.

Please read the parents agreement carefully and be sure that you understand all the comments. Then sign and date.

If you feel that the school is not living up to this agreement in any way please be sure to let us know so that we can do our best to rectify the situation.
