

Padstow School SEND Information Report and Local Offer 2021 - 2022

Padstow School is a Primary School situated in a rural setting within North Cornwall. It has a welcoming atmosphere where staff and pupils work together to create a happy, secure, caring and stimulating environment. We aim to be inclusive of all children, whatever needs they may have. The facilities we have and the education we provide are tailored to meet individual needs. Staff at Padstow School work in partnership with parents, Hub Councillors and the wider community and are trained to cater for the needs of the children in their care with many have specialist training to meet specific needs.

Every child at Padstow School has the opportunity to follow the Primary National Curriculum and /or access all areas of learning in the Early Years Foundation Stage. This is achieved through differentiated planning and delivery by our talented team of teachers and their assistants.

We are committed to providing opportunities to achieve the full potential of all children, whether in academic work, artistic work, sport or play. Our aim is to ensure that all children make progress from their unique starting points. We do this through a variety of different provisions, which include short-term specific interventions, 1:1 sessions, home-school interventions and a range of individualised interventions that are developed to meet needs identified in school or with the support of external agencies.

Padstow School recognises, celebrates and values the progress and achievements of all pupils across the curriculum. All pupils are given the opportunity to develop responsibility, self-esteem and respect for others, their community and planet. Equally, all pupils are encouraged to respect the beliefs, culture and moral values within the community and globally. We encourage all children to make a positive contribution to our school and the local community and to appreciate their place in the wider world.

COVID -19 update (September 2021): Aspire Academy Trust is following the latest DfE guidance and subsequent Local Authority guidance in all matters related to SEND. Due to COVID-19 some elements of this SEND Information report /policy cannot be delivered in full. The DfE recognises that we need to consider 'what can reasonably be provided during this temporary period'. This will be continually reviewed in line with the latest DfE and Local Authority guidance.

13. Pupil progress

Pupil's progress and attainment is an ongoing process of teaching, learning, consolidating and applying. The class teacher and support staff complete this. Children receiving Special Educational Support have Individual Educational Plans (IEP's) which show the support in place, enabling the children to achieve their targets. This is shared with parents and pupils. Progress made towards targets is continuously monitored and assessed. Pupils, parents and their teacher review the targets and provision and successes are celebrated. If a child continues to require SEN Support, new targets and provision is planned and recorded using an IEP.

However, if a child makes expected progress, they will be removed from the SEN Support register and placed 'On Alert', to ensure that their progress is closely monitored for two further consecutive terms.

Parents can request a meeting with the class teacher, the SENDCo or the Head Teacher. Any concerns with progress are discussed with the Head of School, teacher and the SENDCo.

All pupils are involved with self-assessments at the end of learning tasks and against learning outcomes in lessons.

14. How we know how good our SEN provision is.

At Padstow School we are always monitoring and evaluating the quality of our SEN provision. We monitor our provision through Aspire Academy Hub monitoring visits, SENDCo observations and learning walks and conversations with pupils. We also ask parents for feedback and comments during review meetings and through parental questionnaires.

In terms of intervention and specific provision, there is an entrance and exit assessment made to ensure the pupils are making progress from the provision. We make any appropriate adaptations as necessary.

Padstow School reviews its SEN provision annually using the Aspire Charter Mark, which identifies strengths and areas for improvement, against the statutory requirements stated in the SEND Code of Practice 2015. From this, an action plan is produced.

15. If you wish to complain.

The first point of contact for concerns should be the class teacher. If you feel that there are still concerns or questions unresolved then contact the SENDCo (Sally Hewitt), SENDCo assistant (Helen Edwards) or Head of School (Kate Whitford) to arrange a meeting.

Cornwall's Local Offer can be found on The Cornwall Family Information Services (FIS) website: http://cornwall.childrensservicedirectory.org.uk

Answers to Frequently asked Questions

1. How do people in school know if a pupil needs extra help?

Our school has an 'open door' policy to parents and has extremely well-developed links with the parents of the children that attend Padstow School. Children's progress and behaviour is monitored through termly tracking systems. Children who may be vulnerable are identified on a Class Vulnerable Group record, used to consider both need and intervention when tracking and reviewing their progress termly. This is shared with all staff.

If a child transfers to our school from another Primary School, then we always do our utmost to find out as much information as possible about that child from both parents and the child's previous school. If there are external professionals involved with that child, then their opinions and reports are sought after to ensure that we get the full picture of that child.

2. What should I do if I think my child may have special educational needs?

If you think that your child may have a special educational need then talk to us. We are here to listen and to help. You should talk to your child's class teacher in the first instance and then after discussion they may set up a meeting with the Special Educational Needs and Disability Coordinator (SENDCo) and / or the Head of School. Following these meetings, steps will be taken to address any concerns you may have about your child.

3. Who is responsible for the progress and success of my child in school?

The progress and success of your child in school is everyone's responsibility. By 'everyone' we mean all school staff and parents as well as the child themselves. Whole cohort, termly progress review meetings with staff ensures progress is tracked and monitored appropriately and discussions about vulnerable groups are timetabled into staff meeting half termly. Where necessary, specific and targeted intervention support will be deployed.

4. How will the curriculum be matched to my child's needs and how will their needs be supported?

At Padstow School we are flexible and creative with our approach to the Early Years Foundation Stage Framework and Primary Curriculum and plan lessons to be accessible for all. In all classrooms there are three 'waves' of support:

Whole Class (Wave 1) – support and resources available to everyone in that class;

Group (Wave 2) – support and resources available or tailored for small groups of children; and 1:1 (Wave 3) – support and resources specifically designed for or accessible by individual children.

All lessons are differentiated appropriately, according to the needs of the children in that class or group whether it be by the amount of support children will receive, resources they may use or the expectation the teacher has of those children when that lesson is finished.

Children are sometimes withdrawn from the classroom in small groups or on a one-to-one basis for more intensive support, with a teacher or teaching assistant, or to take part in an intervention program designed to meet and support the needs of that individual or group of children. Children may also be withdrawn by staff for physiotherapy sessions or individual speech therapy support.

5. How will I, and my child, know how well they are doing and how can you help me to support my child's learning?

Padstow School operates an effective 'open door' policy to create a constant positive dialogue with parents. In addition to this, staff may ask to speak with parents at the end of the school day. Parents and pupils are invited to engage in termly SEN review meeting, and/or Parent meetings in the Autumn, Spring and Summer term when annual reports are sent home to parents.

Throughout the year there are 'open afternoons' whereby parents are invited into the classrooms to share the children's learning, progress and support upcoming events e.g. class trips/residentials. This constant dialogue between school and parents will help you to support your child's learning at home and inform you of how they are progressing in school.

If at any time you wish to discuss your child, then meetings can be arranged with class teacher and/or the Head Teacher at your request.

6. What support is there for my child's overall wellbeing?

Your child's overall wellbeing will be constantly supported in school in a variety of ways.

We will help them to be healthy:

by ensuring that they enjoy good physical and mental health,

by encouraging them to live a healthy lifestyle,

to keep safe by protecting them from harm and neglect, and to enjoy life.

We will also help them to achieve well:

by giving them opportunities to make the most out of life.

by teaching them the skills they need for adulthood,

to make a positive contribution to their school, community and society,

by being involved in their community and society and discourage involvement with anti-social or offending behaviour, to contribute to their economic well-being, and

by ensuring that they are not prevented from achieving their full potential through economic disadvantage.

7. How do I know that my child is safe in school?

At Padstow School, we have a variety of measures, policies and procedures in place to ensure that your child is safe. All staff are checked by the Disclosure and Barring Service (DBS checks, previously known as CRB checks) and have Tier 2 child protection training. There are also named members of staff who are trained to Tier 3 in child protection. We have a safeguarding policy and have appropriate risk assessments in place for activities and situations that may arise.

8. How accessible is the school environment?

The school building at Padstow School is accessible to everyone who attends school or who comes to visit us. We have good access to every classroom. We have a disabled toilet and changing facility.

9. How will school prepare and support me/my child through the transition from key stage to key stage and beyond?

Your child will be highly supported by school throughout every transition process. We would meet with everyone involved in supporting a child's needs, talk to the relevant external professionals as well as involving members of staff from the next stage of schooling in these meetings. Where a child is transferring to a secondary school, they would be able to undertake extra transition days to allow them to become more familiar with the environment.

10. What specialist services and expertise are available at or accessed by your school?

A list of specialist services used by the school and are accessible to us are on the Family Information Service website. https://www.cornwall.gov.uk/health-and-social-care/childrens-services/family-information-service/

11. How is my child included in activities outside the classroom including school trips?

Everyone is included in everything at Padstow School. Activities outside the classroom are a part of everyday life for us and we undertake a wide variety of school trips throughout the year. All children are encouraged to take part in after school clubs, and those children who need it

are supported appropriately. The same applies when it comes to trips and camps and adaptations are made where necessary to ensure that every child is included whilst at the same time carefully ensuring that those adaptations do not affect the experiences of other children.

12. How are the school's resources allocated and matched to pupils' special educational needs?

Each year the school decides on an allocation of money for special educational needs (SEND). For all children on the school's SEND register the school itself is expected to meet the first £6,000 of any resources and support required by each individual child. For those children with an Education, Health and Care Plan, spending above the £6,000 may be claimed back from the local authority up to a limit set by the resources provided by the statement.

In addition to this, these children also have access to free resources and support from external professionals such as Educational Psychologists for example. In-school resources and support are detailed on Individual Education Plans (IEPs). The plan is individually tailored to each child on the SEND register and specify which resources will be used to support that child, how much support they will receive and whether any additional adult support will be used.

13. What SEND training have the staff at school had or are having?

The Special Educational Needs and Disability Co-ordinator (SENDCo) has undertaken the following:

Accredited National Award for SEND Co-ordination, a year-long qualification which looks in depth at the differing types of special educational need, research and pedagogy into a wide variety of educational topics as well as how best to support children with SEN in school. Masters degree in Education with an SEND inclusion focus.

Trauma Informed School (TIS) Practitioner training and continues to attend online update sessions to ensure TIS approaches supported are embedded in teaching, learning and SEND practices.

Work, Rest and Play the Sensory Way (WRAPS). The training provides an understanding of individual sensory differences and needs, enabling teachers to identify and support sensory challenges faced by children within the school environment. On completion of the training the SENDCo is able to disseminate learning within the school so that basic strategies are introduced as needed to support pupils' sensory regulation and enable them to make a referral where necessary.

14. What should I do if I feel that the Local Offer and the Information Report is not being delivered or is not meeting my child's needs?

If you feel that the Local Offer/Information report or the School Offer is not being delivered or is not meeting your child's needs then we urge you to contact school in the first instance, speaking to either the SENDCo (Sally Hewitt) or the Head of School (Kate Whitford). Concerns may then be escalated, if necessary, to the Director of Safeguarding and Inclusion (Sally Hannaford) or to the Board of Directors at Aspire Academy Trust.

15. How is your School Offer and Information report reviewed?

Our School Offer and Information Report is reviewed on an annual basis in consultation with staff, parents and directors of the school.
